REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowed.

The 112 second paragraph rejection for claims 4-8 is withdrawn since the amendment has obviated the rejection.

The 103 rejection over Rossey in view of Sohda is withdrawn upon reconsideration in view of Applicant's remarks. The instant process uses phosphorous tribromide whereas Rossey uses thionyl chloride to react with the intermediate compound III. Rossey's process requires a reducing agent whereas the instant involves a hydrolysis step leading to simplification of the procedure with higher yield. Motivation to modify Rossey's process via multiple changes to arrive at the instant is not apparent to one of ordinary skill in the art.

The 103 rejection for claims 4-8 over Rossey in view of George and/or Whitfield and/or Perez is withdrawn upon reconsideration in view of Applicant's remarks. George's dialkylglyoxyamide is a monomer, whereas the instant is a dimer. Although the dimer compound has been described by Whitefield and/or Perez, lacking is the motivation to replace the acetamide of Rossey with the glyoxyamide of Whitefield and/or Perez to arrive at the instant process.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evelyn Huang whose telephone number is 571-272-0686. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cecilia Tsang can be reached on 571-272-0562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
